Joe Godleski

ixeldog@gmail.com
Alpharetta, GA

I'm a developer located in Alpharetta, Georgia who has spent the last couple years doing full stack development on a web application for an electronic medical records company. I'm currently looking for a remote position that is at least half frontend web development, and would prefer to continue working with Angular 4.

Skills

Frontend Languages
TypeScript/JavaScript, SASS/CSS, HTML

Frontend Tools
Angular 1.x, Angular 4, Node.js, NPM, Bower, Grunt, jQuery, WebStorm, Visual Studio Code, Jenkins

Backend Development
C#, .NET 4.5.x, Web API, Visual Studio, Java, Maven, Apache Tomcat, PHP

Databases
SqlServer, Oracle, MySQL

Experience

Surgical Information Systems – Alpharetta, Georgia

Project Mercury
Rewriting legacy application for the Cloud using TypeScript, Angular 1.4, and SASS on the frontend, .NET Web API webservices, and a SQL Server database. Switched to Angular 4 in Spring 2017.

Fall 2014 - Summer 2017

SIS Com
Maintaining and enhancing an existing patient tracking application. Flash displays launched and configured through a web portal and pulling their information from Java based Rules Engine and Message Router and an Oracle database.

Spring 2009 - Fall 2014

Education

B.S. Computer Science
Southern Polytechnic State University

2004 - 2008
